Campus Santé
CUESIM
Building D - ground floor
9, avenue de la forêt de Haye
54500 VANDOEUVRE LES NANCY

TARGET PUBLIC

Staff and non-health professionals working at healthcare facilities, medicosocial centres or private practices.

GENERAL AND EDUCATIONAL OBJECTIVES

Objectives, module 1: vital emergencies

This module enables learners to:

- Identify an immediate danger and provide appropriate protection, on a daily basis
- Alert the SAMU or in-house number, communicate observations and follow the advice provided
- Identify unconsciousness and ensure that the airways of a spontaneously breathing unconscious individual are unobstructed and protected
- Identify a heart attack and carry out cardiopulmonary resuscitation or have it carried out, with equipment (automated external defibrillator)
- Identify an acute airway obstruction and take appropriate action
- Stop external bleeding, complying with the rules of hygiene and protection in the face of risk of infection

Objectives, module 2: potential emergencies

This module enables learners to:

- Identify signs of the seriousness of an ailment and of a bone or skin trauma and take appropriate action

- Identify signs of a burn's seriousness and act accordingly
- Apply elementary rules of hygiene
- When there is no doctor nearby, ask SAMU for advice and communicate observations in compliance with ethical and professional rules

Objectives, module 3: collective risks

- This module enables learners to:
- Identify a danger in the environment and apply appropriate instructions
- (alert populations, exceptional situation in an institution)
- Identify their role in the event of the White Plan or Blue Plan being triggered
- Become aware of NRBCE (nuclear, radiological, biological, chemical and explosive) risks
