CUESIM
Building D - ground floor
9, avenue de la forêt de Haye
54500 VANDOEUVRE LES NANCY

TARGET PUBLIC

Health professionals, teachers and cadres at health faculties, healthcare schools and institutes, firefighters, paramedics, etc.

GENERAL AND EDUCATIONAL OBJECTIVES

Health simulation is a tried and tested teaching method for training health professionals.

Lorraine Virtual Hospital provides health professionals with a short training course enabling them to acquire basic knowledge on setup and implementation of simulation scenarios in compliance with French National Health Authority (HAS) recommendations.

Educational objectives:

- Interest and role of simulation in teaching health sciences.
- Theoretical bases of simulation-based teaching in healthcare.
- The basics of instructional design: from learning objective to development of scenarios.
- Discovery of high-fidelity simulators.
- Basics of and essential steps in facilitating a debriefing.
- Optional: assistance with an educational project.

This short course is excellent preparation for and a stepping-stone to the DU in Health Simulation Pedagogy.

ORGANISATION

- 6 half-days of theoretical and practical teaching divided up over 3 days of training
- 2 half-days of pedagogical monitoring in practice situations (dates to be agreed on between learners and facilitators)

GROUP SIZE

- 15 learners
- 5 facilitators

COST

€800 per learner

a NASCE
accredited
course
