7th NASCE scientific meeting

network of accredited skills centers in Europe

October 10-13 2023

Hôpital Virtuel de Lorraine, Nancy France

Dear Friends, Dear Colleagues,

We are happy to invite you to the international scientific conference "7th NASCE/ UEMS Scientific Meeting – Multidisciplinary Education and Training," which will be held at the Virtual Hospital of Lorraine in Nancy, France, from October 10 to October 13, 2023.

It is essentially the European Conference on Continuing Education and Continuing Training of Physicians and Health Professionals focusing on Multidisciplinary and Interdisciplinary Education and Training. NASCE (Network of Accredited Clinical Skills Centers of Europe) is a multidisciplinary joint committee (MJC) of the European Union of Medical Specialists (UEMS). The largest scientific organization in Europe, with over 1.6 million MDs. In addition, it has significant contacts with the European Institutions (Commission and Parliament), the other autonomous European Medical Organizations, and the European Medical / Scientific Societies.

The UEMS-certified Train the Trainers Course, which runs for two-day, from (10-11 October). Followed by two interesting days of scientific program from (12–13 October), and include symposia from different industries, where personalities and notable figures from the larger scientific community and intellectual life will be invited.

At this year's Conference, we have the honor of inviting internationally acclaimed keynote speakers for the Conference.

We are glad to additionally to present abstracts from Europe and worldwide. These abstracts reflect a strong desire from healthcare professionals and students to share their research interests at the Scientific Conference. There will be ample opportunities for the participants to discuss, share, participate and engage in stimulating discussions at the various scientific sessions and presentations.

We are looking forward to meeting you and hope everyone attending the two-day training Course and Scientific Conference hosted by NASCE – UEMS an experience that is both enlightening and mentally exciting.

Sincere gratitude is extended to each and every one of our Sponsors for all of the support they have provided.

In appreciation,

Associate prof. M. e. Aksoy Prof. Nicola SETTEMBRE
